Assignment Details (Estimated Time: 2.5 hours)

TASK - **Pre-filling address fields based on pincode entered**

Develop a page which should be an exact replica of the below mockup and should cover the address autofill functionality based on the pincode entered. Make use of https://api.postalpincode.in/pincode/{Pincode} to fetch the data and autofill the fields

Shipping address

First name (optional)	Last name

PIN code ⚲

Address

Apartment, suite, etc. (optional)

City

Country/Region India ▾	State State ▾

Phone

Steps:

- Enter a pin code
- Make an ajax call with the pin code entered to the above mentioned API
- Fill the Address, City, Country and State with the response received.
-Please ensure that the page should be responsive across mobile devices
